

Holy Family Tubbercurry

Step 5

Stem show and tell

Stem show and tell

- ▶ We give the children many opportunities to present their work to others
- ▶ We also use our facebook page and our twitter page to show the children's work in video form, Facebook Holy Family NS Tubbercurry. Twitter @holyfamilysligo
- ▶ We use our weekly assembly to give children opportunities to showcase their work - bridges, lighthouses, Junior Entrepreneur Team, Erasmus visitors, Erasmus feedback
- ▶ During Science week children often visit other classes to see their work
- ▶ We have an Open Day where we invite parents in to see our school in action - looking at science experiments, seeing ICT in action
- ▶ As part of our Junior Entrepreneur work we have showcased work to the local community and also to The Minister and visitors for the Tubbercurry Smart Community network

Show and Tell

- ▶ As part of our Erasmus programme “Cool Science for Young Scientists” our school is partnered with schools in Ireland, Germany, Hungary, Norway and Greece
- ▶ Teachers and children from the visiting schools have come to our school and we had a science day together
- ▶ We have travelled to other countries and experienced science there

Invitations from our partner schools

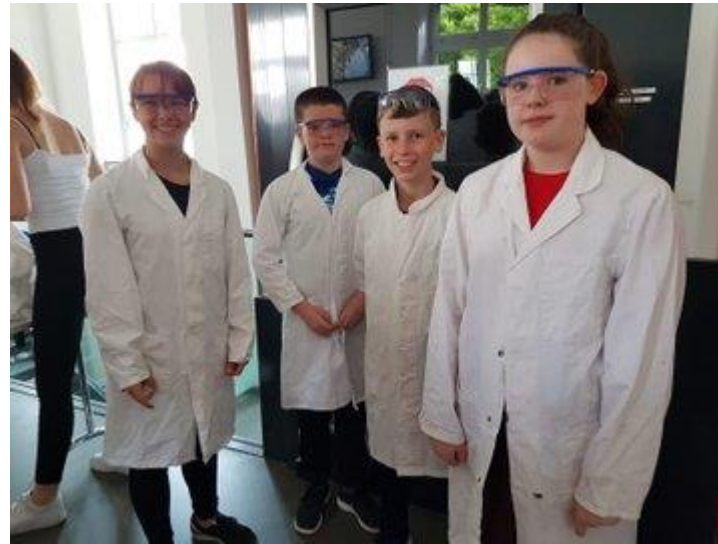

Our trip abroad

Science Day with our Erasmus Partners

More of our Erasmus Science Day

Some of our travelling students and staff - off to fly our science flag

Erasmus + trip to Windfarms with our partner schools

Showing off our designs at assembly

Project work with other schools at St Angela's College, Sligo

More pictures of our Young Scientists in action on their first day at college.

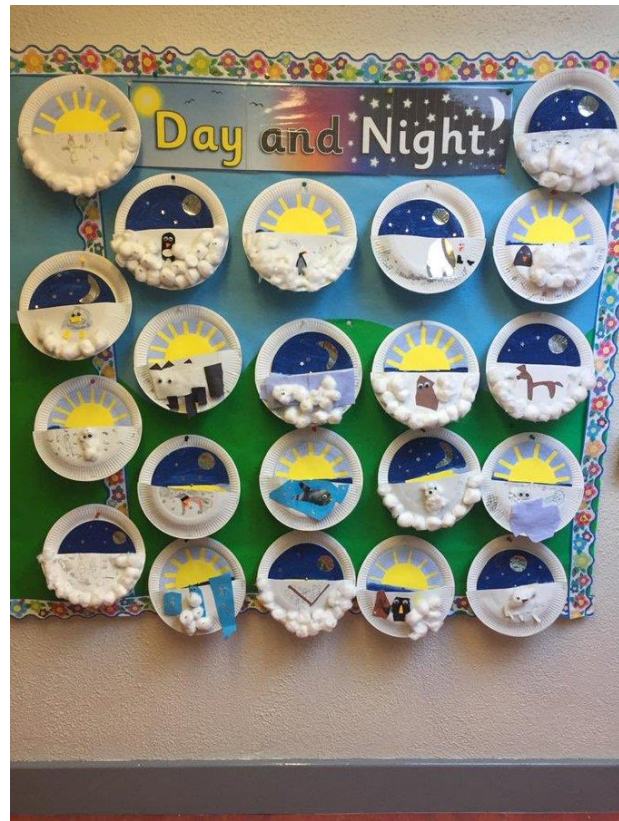

On our Open Day and on the day Minister Canney and Smart town visited we showed off our Maths and IT

We have shown off our new cooking skills to other classes

We have Maths and Science Displays around the school to showcase our work

Maths and Science on Display

We love to show off!!!

Our 6th class presented their Junior Entrepreneur Project to Minister Canney and also to the local community.
